CREATOR SPOTLIGHT

Manish Vyas — Director & Composer

Born and raised in India, deeply immersed in its sacred traditions, Manish Vyas began his journey with music, mantras, and devotional texts from an early age. His versatility as a musician led him to collaborate with accomplished artists and creative communities across the world, gradually establishing his presence in the field of sacred and global music.

With India's rich cultural, spiritual, and musical heritage at the heart of his work, Manish increasingly became aware of a significant gap in the way India's ancient wisdom—particularly the tradition and science of Mantra—is understood and represented in the modern world.

This realization became the inspiration for the project: to explore and present the profound tradition of Mantra in a way that honours its authentic origins, spiritual depth, and timeless significance.

Global Music Legacy: More than 30 Worldwide album releases touching millions of sacred sound listeners.

Cultural Authority: Indian multi-instrumentalist raised in authentic devotional music traditions.

5-Year Dedication: Created and produced alongside his wife Vanesa Nau and an expert production team.

"India is my soul. My goal is to convey a deeper understanding of mantras beyond feel-good concerts." Manish Vyas
